Hi [redacted],
6 statutory rapes were reported by medical staff. The victim was examined at the hospital due to pregnancy or after having the child.

I was reported to the police by the victim.

I was due to the victim's mother caught her getting out of the suspect's vehicle.

I the victim told a friend who reported the incident to the police.

Det. [redacted],

I am on a deadline for my research, and I would really appreciate it if you could get me the information as soon as possible. I would be interested in having as much information as possible about the individual statutory rape reports from June and July 2008. At the very least, I would like to know who the young girls reported their abuse to and the ages of those girls.
