Sock the Vote Tour Materials Overview

Students for Life is catering tour materials to fit every campus.

Every campus looks different this fall. Some are allowing limited forms of tabling and outreach, and some are banning it altogether. Read more about how Students for Life of America adopted traditional tour plans in order to meet the goal of hosting the tour at over 100 college campuses this fall. There has never been a more crucial time to persuade students to *Sock the Vote*.

Tier 1 Schools: Campus Visits

Tier 1 Schools are free to participate in as many activities as offered in this tier and others. Their Regional Coordinator will bring these and other Tier 2 materials to campus.

Activities & Resources

- Outreach with your Regional Coordinator
- The tour banner
- 2,362 baby socks

Tier 2 Schools: Social Distancing

Tier 2 Schools are limited when it comes to inviting their Regional Coordinator and doing person-to-person outreach. They have access to these and Tier 3 activities.

Activities & Resources

- Chalking
- Cemetery of the Innocents with baby socks and yard signs
- Announcements for like-minded clubs
- Flyers
- Brochure handouts and pledges
- Slide for campus TVs
- Buttons and stickers

Tier 3 Schools: Digital Outreach

If a school is completely digital this year, they will be limited to mostly Tier 3 activism.

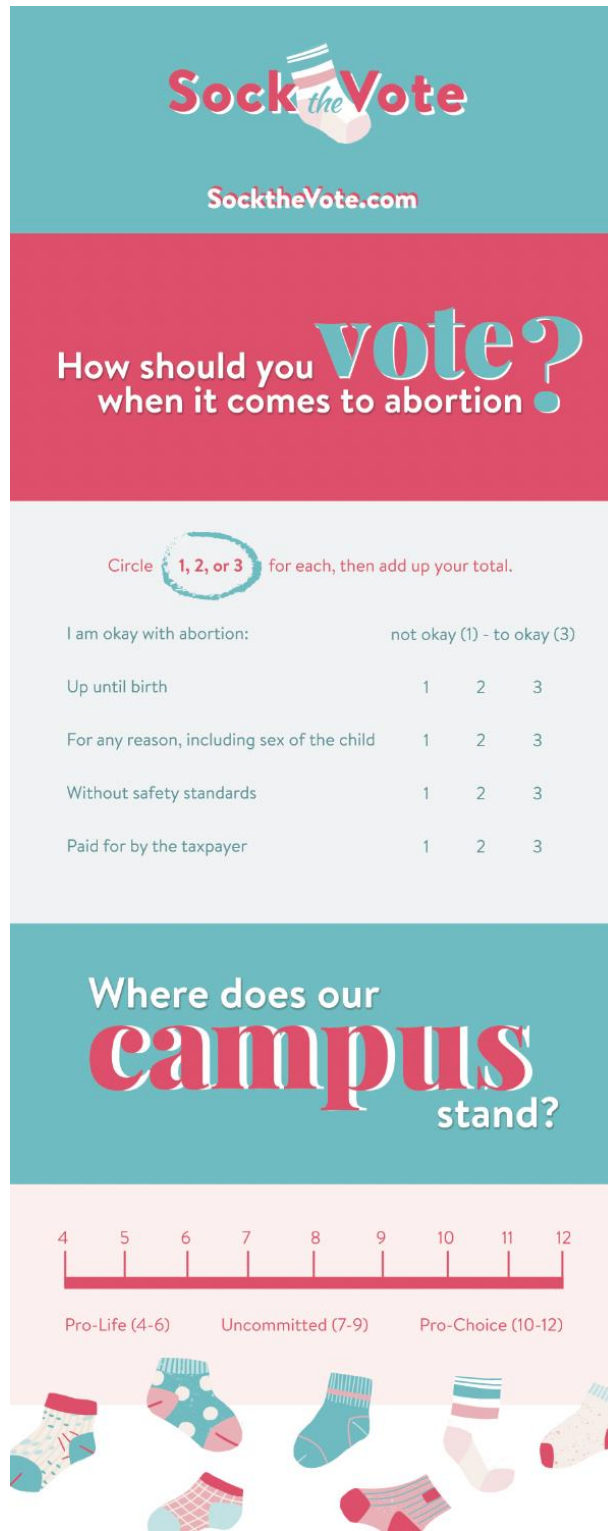

Activities & Resources

- Geotargeted online ads
- Social media graphics
- Student body email
- Group member email
- Sample op-ed
- Sample press release
- Online abortion quiz
- Online speaker events

All Tiers will be required to host a *Sock the Vote Tour Training* and collaborate with their Regional Coordinators to receive resources that uniquely fit school policies and reach the maximum number of students.

Physical materials can be previewed on the following pages.

Abortion extremism is a
reality

Late-term Abortions

Abortion is legal up until birth. Over 10,000 of these painful late-term abortions are committed every year in the United States, for any reason. There have been numerous attempts to pass the *Pain-Capable Unborn Child Protection Act*, a law that would make abortion illegal after 20 weeks, after science proves babies can feel pain. However, this bill has failed to pass numerous times in both the U.S. House and the Senate, most recently in February 2020. Even some Democrats voted in favor of this common-sense legislation but have since received attacks from their own party and pro-abortion lobbyists.

Infanticide

Some babies survive abortions. (It happens! Google *Gianna Jessen*, a real survivor of abortion, or look-up the Center for Disease Control's report that states 143 babies had been born alive from 2003-2014 after attempted abortions.) In Congress, the *Born Alive Infant Protect Act* called for doctors to care for these viable children. Extreme politicians voted down the bill.

Unregulated Abortions

According to an Americans United for Life poll, over 70% of Americans support laws for basic safety standards at abortion facilities. Regular inspections, doctors having admitting privileges at a nearby hospital, qualified physicians, and basic safety standards are all common sense. This unsafe treatment in the name of "accessibility" puts women at risk.

Taxpayer Funded Abortions

A 2020 Marist poll found that 60% of voters are against federal tax-funded, elective abortions. Regardless, some states have mandated that taxpayers must fund elective abortions, unfairly forcing people who oppose the ending of innocent preborn life to pay for it. Local elections matter too!

TO ABORTION TODAY
IN AMERICA.**

We need YOU to vote pro-life first. It's more than the Presidency on the line; it's federal judges, Supreme Court nominees, foreign policy, executive orders, state laws, your taxes, and more. Not to mention thousands of children and their mother's safety. We vote to support children, born and preborn, and their families!
